Certificates

Certificate in Emerging Technologies (Interdisciplinary)

UCO Code: 2180

The Certificate in Emerging Technologies is an interdisciplinary program that can be taken in conjunction with any degree program. It includes courses having a technology content which are offered by various departments. The program is designed for students who wish to learn about the importance of technology in various organizational settings.

Plan of Study

A student's plan of study includes at least 18 hours of courses, taken in at least three colleges. The program is tailored to the individual interests of the student. Courses are selected by the student in consultation with the program director.

Twelve hours of coursework must be completed at UCO. Coursework in the student's major will not count towards the 18-hour requirement. Students must complete the program with a cumulative GPA of at least 2.5 in program (certificate) courses.

Students planning to enter the program are encouraged to do so early in their college careers, preferably during their freshman year.

Program Recognition

Completion of the program is recognized on the student's transcript upon the granting of a baccalaureate degree. For further information, please contact:

Total hours required 76

The above course work meets licensing examination requirements in many states. Students should check with their home state for specific requirements. A minimum grade point average of 2.00 must be earned in all work applicable to the program. Students must have completed a minimum of 30 semester hours credit in residence at the University of Central Oklahoma including 15 hours in residence at UCO of the final 30 hours applied toward the certificate program.

Non-Degree Programs

International Studies Program (Interdisciplinary)

The International Studies program is a unique concept among the University's academic programs. It is not a departmental major which leads to a degree, but is an interdisciplinary program intended to complement a major and can be taken in conjunction with any degree program. It includes courses having international content which are offered by various departments--history, political science, geography, foreign languages, economics, humanities, business, education and others.

The International Studies Program is designed for students who wish to learn about foreign countries and cultures, as well as relations among nations. The program is especially helpful to students who wish to apply the skills learned in their degree majors in a foreign setting.

Plan of Study

A student's plan of study includes 24 to 30 hours of courses, taken in at least three departments, and is individually tailored to the specific interests of the student. A program can be focused in any area of international interest, for example, Latin American Studies, Problems of Developing Countries, International Politics, International Business, and others. Courses are selected by the student in consultation with a committee of faculty members who have specialized knowledge in the student's area of interest.

The study of foreign language is encouraged but not required.

Courses which are taken as part of the student's major or minor may, if relevant, be counted in the plan of study for the International Studies Program. For most majors normally no additional course work beyond a bachelor's degree is necessary. Students planning to enter the program are encouraged to do so early in their college careers, preferably no later than the second semester of the junior year.

Recognition

Completion of the program is recognized on the student transcript upon graduation by a statement indicating the area of specialization. For further information contact the program's director.

Military Science

Through the Army Reserve Officers' Training Corps Program (Army ROTC), the Department of Military Science offers two programs to qualified male and female students leading to commissions as Second Lieutenants in the U.S. Army, the Army National Guard or the U.S. Army Reserves.

The Four-year Program

The 4-year program consists of a Basic Course and an Advance Course.

The Basic Course (MSI and II) is normally taken in the freshman and sophomore years. This instruction introduces the student to national defense, mission and organization of the U.S. Army, role of the Army Officer, leadership, military courtesy and customs, marksmanship, mountaineering, survival and map reading. Classes meet two hours per week. Wearing a uniform and attending leadership lab is optional. Basic Course students are under no military obligation.

The Advance Course (MSIII and IV) is normally taken during a student's junior and senior years. For admission to the Advance Course as an ROTC cadet, a student must have completed or received placement credit for the Basic Course and sign a contract. Advance Course contracting is selective and based on specific criteria to include leadership potential.

Instruction includes leadership development, group dynamics, management, tactics and administration. Classes meet three hours a week. The Advance Course includes a 1 1/2 weekly leadership lab period, physical classes, and a six-week Adv. ROTC Summer Camp.

Contracted cadets receive travel expenses and \$20 per day for Advance Camp. G.I. Bill, student loan repayment program, scholarships, and simultaneous membership program benefits are available to eligible students. Contract cadets agree to accept a commission as a Second Lieutenant, if offered, upon Advance Course completion and to fulfill an initial military obligation in either the Active Army, Army National Guard, or Army Reserve.

The Two-year Program

The two-year program involves only the Advance Course as described above. Students may qualify for the two-year program by attending a 6 week basic ROTC summer camp or by being granted placement credit for prior military service or high school junior ROTC. Graduate students may also be eligible.

GENERAL

1. Military Science (ROTC) at UCO is fully credited. All credits may apply toward graduation.
2. Military Science can be used as activity P.E. **OR** elective credit.
3. Free books are provided for Military Science classes in the Basic course.
4. Six hours academic credit can be earned for summer camp completed.
5. All Military Science classes may be taken by any student for academic credit. Participation as an ROTC cadet, however, requires specific qualifications. Contact the Military Science department for details.

SCHOLARSHIPS

Students may apply for ROTC scholarships which pay for all tuition, books, and fees, plus \$250-\$400 a month (tax free) for up to 10 months per year. High school seniors may apply for four-year scholarships up to December of their senior year. College students may apply for three and two-year scholarships.

CROSS ENROLLMENT FOR OCUSA, LANGSTON, SNU and OCU

Full-time students at Oklahoma Christian University of Science and Arts, Langston University, Southern Nazarene University, and Oklahoma City University may enroll in the Military Sciences courses at the University of Central Oklahoma. Students may also pursue a commission through the ROTC program at UCO while pursuing their degree full-time on their respective campuses.
